

Why Most Men Fail to Get Laid On Dates And What To Do About It

From The Desk Of RedpoleQ, Founder Of PickUp Asia & Asia Dating Monthly

Let me ask YOU:

- Can you remember a time when a date was going well when suddenly things become '*cold*' and you could sense she was losing interest in you?
- Have you ever had a girl promise to call you only to never hear back from her again?
- Do you ever feel like you don't know what to say on your dates and you know it's KILLING your chances?
- Are you tired of girls you like saying "I wish could find a nice guy like you" only to have them date 'jerks' or 'bad boys'?
- Do you wish girls would stop seeing you as just a "friend" and start seeing you as something *more*?

If you answered YES to any of these questions, you're not alone.

I've been exactly in your shoes before...

...Probably worse.

I understand your frustration...disappointment...and struggle.

But after a lot of hard work and determination, that's all changed now...

The list of questions above was compiled from hundreds of my dating experiences and those of my students I've coached.

But you don't have to go through hundreds of dates like me to have success in your love life.

If you read on, you'll discover how to INSTANTLY become more successful with women...

The Single Biggest Mistake Guys Make On Dates

I'm going to let you in on a secret...

The biggest reason why men fail with women is because of this ONE MISTAKE.

You're probably making it yourself.

You would think they would learn after a few dates, but they keep making it over and over again...

I know this because I've been teaching men in Asia for over 8 years now on how to create the dating life they desire.

It breaks my heart seeing guys screw up their chances of being with a woman...all because they fail to do this one simple thing...

And the worst thing is, they don't even realize it.

If you only avoid this one mistake, you'll see a huge improvement in your dating life...

...and start having more dates that end up in your bedroom...

Are you ready? It's this:

Being unprepared.

Let me emphasize that again:

Being unprepared is the biggest reason why most men fail with women.

See, what's infuriating is that most guys would have more success with women if they were only prepared.

Proper preparation is VITAL to creating the dating life you want.

This means having a proper plan in place...

...such as, knowing what places to bring her...what to say to get her attracted...and what to do so she'll feel comfortable continuing the interaction.

Being aware of these things is the only way to ensure your dates will be awesome.

However, most guys fail to take that responsibility and then wonder why their dating life is a disaster.

Realize that you - and only YOU - are responsible for how your dates go.

...So it's your job to make sure that women love them.

How I Created An Awesome Dating Lifestyle

When I first moved to Japan in 2000, I had only had one girlfriend in my life and had no idea about women and dating.

I thought when I moved to Japan, girls would be all over me...

Boy, I was in for a **rude awakening**.

My first year there was rough to say the least and I had little success to show for my efforts.

What's more, all the "allegedly successful" guys there were often settling for girls that local Japanese guys had ZERO interest in.

And even with my fairly low standards back then, I was frustrated with my situation...

Every day I passed by hundreds of beautiful girls, but I was completely clueless how to get them. I wanted change that.

So I started surrounding myself with guys like me who were striving to better their lives by bettering themselves...

And by 2006, I felt I finally had the kind of dating life I wanted.

One of my friends from New York City came to visit me and my crew and he was really impressed with the lifestyles we had built.

He suggested we start teaching other guys how to live the kind of awesome dating lives we were living in Asia.

So in 2007, I started running PickUp Asia's coaching programs.

And ever since then, I've been helping guys to achieve the dating life they desire...

Why Most Dating Advice Is Terrible

Having a successful dating life is impossible without knowing first what women want.

And this is where most dating advice falls flat.

They give you one-size-fits-all answer to social situations.

Formulaic mantras like "Be confident" or "Play it cool" are somehow supposed to help...

Nonsense!

If it was that simple, we wouldn't have so many frustrated guys out there.

Even worse, most "outer game" pickup advice only focuses on the first interaction and fails to address what to do AFTERWARDS...

They fail to give any concrete steps for creating an amazing date or a framework for a healthy long term relationship.

Thus, most information isn't helpful if you're struggling to connect with a girl or when she isn't returning your phone calls anymore.

To get the girl off her butt and into your arms, you have to do specific things to show her you're the "right guy"...

...and if you can do them *successfully*, I promise **you'll be dating more beautiful and sexy girls in no time.**

What Others Have To Say...

One of my recent clients revealed to me that he didn't have a relationship in three years...

That's THREE years of being alone!

Things had gotten so bad that he became severely depressed and had given up all hope of meeting a girl.

He spent his weekends home alone, watching online porn and playing videogames...

...Going on another date and being told "It's not going to work out" just wasn't worth it anymore.

He had read a lot of the pickup and dating advice out there, but didn't find it very helpful.

It was just *too vague*...things that have been said a *million times* already.

He even took an expensive boot camp with a pickup company, but remembering 'lines' and pretending to be 'someone else' wasn't working either.

Luckily, after applying some of my concepts his love life has been on fire: He's currently dating two girls - including a model- and he couldn't be happier.

He no longer feels hopeless and now feels a whole new world has opened up to him.

How To Date The Women You REALLY WANT

Listen, I get it. I know how frustrating it can be...to go on date after date...

...and have it lead nowhere.

You wonder if something is *wrong* with you...you even start wondering if you're going to be alone forever.

I've been there.

And I want to help you.

I want you to be with **women who you desire and will enrich your life.**

I want to turn you into that **charming and irresistible ladies man** I know you can be.

And I want to stop the hurt and help you finally **take control of your dating life FOREVER.**

So that's why I decided to finally sit down and put all my years of dating and coaching experience into writing.

I've taught hundreds of guys across cities in Asia, including Tokyo, Seoul, Beijing, Singapore, and Hong Kong.

I've helped all kinds of men - my oldest client being 62, and my youngest being only 15.

I've helped guys who were successful with women in their own country but struggled once they moved to Asia.

I've also helped guys who were terrible with women.

Some of those guys were virgins until they were 29—and I helped them cure that horrible affliction before they turned 30!

While this book is geared towards Asia, the same concepts apply no matter where you are.

In fact, my students have used the same concepts to have amazing relationships, or even exciting flings in over seven countries around the world.

I call it - "The Perfect First Date".

This Book Is The Quickest Possible Way To Date More Women And Have The Sexually Fulfilling Love Life You Desire...

This book will **supercharge your love and sex life** and take it to the next level...

It will lead you step-by-step through the process of setting up, planning, and executing dates that are fun and will lead to the beginning of a sexual relationship quickly...

And it will eliminate the endless dates that many guys have to go through before meeting a girl.

One of my recent readers had this to say about the book:

I finally read through The Perfect First Date and wanted to let you know I thought it was great. Just what I was looking for. All the important points in a single well-structured book, with notes about a bunch of the logistical problems that I have to deal with.

-D, Tokyo

Inside, I will reveal to you:

- Practical information gleaned from my most successful (and not so successful) dating experiences to create relationships that far exceed your wildest expectations
- How to 'qualify' girls to make them feel as if they've known you for ages
- How to set up dates so girls actually shows up (and are excited for)
- My secret method to keep girls emotionally engaged and ensure she's having a great time

- A special trick to ask for her number so she'll ALWAYS give it – and yes, her real one
- How to text girls to keep them intrigued and *itching* to see you
- A proven step-by-step plan for choosing the best venues to connect, build sexual tension, and give her an experience like no other
- How to handle time constraints so you can make the most of your time you spend with her
- Discover the best days and times for your dates to maximize the chances of her showing up
- What to do if she cancels that makes you look *cool* and sets you apart from 99% of the rest of the guys
- My tried and tested formula to seed the 'home-bounce' so she'll feel comfortable and EXCITED about coming over to your place
- How to smoothly handle any potential objections without ruining the *vibe*
- ...And that's not all...

You'll Also Get These FREE Bonuses

If that wasn't enough, I'll also include \$400 worth of free bonuses:

- A 51 minute audio interview where I review and highlight the important concepts of this book
- 4 "lay reports" from my clients who used the concepts taught in this book to set up dates that led smoothly to sex
- 4 reports detailing the entire dating process including phone game, compliance, text exchanges I've had with a girl, and a special technique to get her worked up and ready for sex
- 4 Advanced Date Techniques and Tactic Reports revealing my biggest secrets I use on dates
- 16 Day Free Access to The Entourage Mentor Program, where you'll be able to receive UNLIMITED feedback from me

Imagine...Having Total Control Of Your Dating Life...

Dating beautiful girls who you thought were out of your league...knowing exactly what to do to get them excited...and having them begging for more...

Wouldn't that be amazing?

Imagine...you and your dream girl hanging out at your favorite lounge...soft music is playing...

You're both sipping a refreshing drink... she's laughing at your jokes... words are flowing out of you like a stream from a river.

You guys are in your own little love bubble away from the rest of world...

You stroke her hair as she caresses your hand...she's looking deep into her eyes...and the moment has arrived...

She wants YOU to kiss her.

That's when you lift her chin up *ever* so slightly...pull her close to you... and give her the most amazing kiss of her life.

Now, imagine this happening for ALL of your dates...

Why You NEED This Book...

Listen - If you want to ignite your love life and have emotionally satisfying relationships with girls, this book is for you.

If you want your dates to be more exciting and seductive, look no further.

If you're tired of girls canceling and saying "they're too busy", this book is going to smooth out all your issues.

And if you want to be more attractive and have girls chasing YOU, you're going to love this book.

However, if you feel you already have a good handle on your dating life and are satisfied with your relationships, you probably don't need this product then.

But keep in mind that the dating process is complex and **things can change at any moment.**

That means a girl can be in love with you today and leave you for someone else tomorrow...

In fact, a recent survey by Pickup Metrics reveals that your average 'hot babe' is being pursued by 4 men at any given time... some even revealed they are actually being pursued by 8 men!

That means you're up against A LOT of competition.

So even if you're content with your dating life now, if you don't have your "A *game*" to keep girls engaged, they're going to leave you for someone else who will.

This means you need to have a **game plan** not only for your dates, but also for your relationships.

This includes knowing what girls want...how they're feeling...and what they're thinking when they're looking for a partner (and no, it's not just money or amazing sex).

You could be making a few simple mistakes...

...mistakes which could be turning girls away and have them think you're not the right guy.

So unless you enjoy going on an infinitive amount of dates or having short unfulfilling relationships, you're probably going to learn something from this book which you can apply in your personal life.

What Makes "The Perfect First Date" Different

Listen, I can't promise that all your dates are going to go perfect.

And I can't promise that you're going to find your *dream girl*.

Nobody can.

But what "The Perfect First Date" can do is drastically improve your dating life by giving you the knowledge and tools to successfully plan and run dates that women will love.

It will show you how to set up dates to smoothly lead to sex.

It will teach you what to say to keep things fun and give her the *right* emotions.

And it will eliminate the lack of planning and uncomfortable, awkward silences that often happen.

This book is unique by the fact that it was originally taken from a 3 hour audio interview I had with my students.

It's filled with tons of practical information that will show you how to ANNIHILATE your dating troubles once and for all.

"The Perfect First Date" will also show you:

- The biggest mistake guys make when going for the kiss (learn the best time to kiss so she NEVER rejects you)
- A powerful way to use personal stories that make a lasting impression (if you do this right, she'll instantly feel a deep, emotional connection with you)
- What to do if she brings a friend, and how to win them over to make your girl even MORE interested in you...
- A special trick to deal with language barriers to keep her engaged and having fun (and no, a dictionary isn't required)
- What to do if you're getting lots of girls canceling on you - this technique will get them more interested, put in more effort, and have them calling you back

- The single biggest gaffe guys make on the phone with girls – If you avoid doing this, you’ll radically increase your dating success
- A behind-the-scenes look at what REALLY goes on inside a girl’s mind and the factors involved that make it difficult for her to meet up with you
- The best places to bring your dates if you’re on a tight budget
- How to avoid the ‘provider’ frame and ensure that she likes you for YOU and not for your money
- And SO much more...

What You’re Going to Get...

So let’s wrap this up.

Here’s what I’m going to include for you:

- “The Perfect First Date: the complete guide that leads you through the intricate process of planning and running dates that women will love.
- 51 minute audio outlining the important concepts discussed in this book
- 4 “lay reports” detailing the process from initial meet to sex
- 4 Audio Date Reports broken down by me
- 4 Advanced Date Techniques and Tactic Reports revealing my secret tricks
- 16 Day Free Access to The Entourage Mentor Program – my exclusive forum where I’ll answer all of your questions

Simply put, this is the most comprehensive system to make your dates more *sizzling*, less nerve-racking and set a framework for healthy long term relationships.

Ok, so you’re probably wondering - “This all sounds great, but how much is this going to cost?”

Before I tell you, let me ask:

How much is this knowledge worth to you?

How much would you be willing to pay to not have to worry about your love and sex life again?

...To always know what to do to get girls turned on and *in the mood*?

...To know you'll never be alone *ever* again?

Many 'dating gurus' charge \$100 per hour just for phone coaching and up to \$3000 for a weekend bootcamp.

I'm sure some of them are decent, but I doubt they have my extensive knowledge and experience on dating and relationships.

I also doubt they can break things down for you to create amazing dates.

This book can save you literally HUNDREDS of hours...time you'll never get back...by slashing your learning curve to successful dating.

It can potentially save you THOUSANDS of dollars if you consider that most guys spend at least \$50 on a first date – which the woman will expect YOU to pay for.

“The Perfect First Date” is only \$24.97 - a **bargain** if consider how much your average date costs and the time you'll be wasting on girls that aren't interested in you.

But then, it's hard to put a price of having full control of your love life...

There's nothing quite like knowing you have the power to attract and seduce girls anytime you want.

I'm so confident that this book will help you date more women **quickly** that I'm going to let you try it RISK-FREE.

When you click the button below, you'll be taken to a secure page where you'll be able to download my book.

If you find the book doesn't help your dates become more *silky-smooth*, just email me and I'll refund your money...anytime within 30 days. No questions asked.

That's how much I believe in my product and that you're going to love it.

But only **you** can make the decision to take the next step.

Only you can decide if it's worth being stood up, or even worse...being told "I think it's better if we just become friends."

The Decision That Could Change Your Life Forever

So what happens if you decide not to get this book?

Will your dating life be any different in a few months?

Probably not.

What about next year?

You'll most likely still be in the same position you are now...only another year wasted...

Aren't you tired of being alone?

Aren't you tired of going on all those endless dates?

Only you can answer that...

But if you consider that we only have 80 years to live, don't you think you would do everything you could to make it the best life possible?

...And there are few things that are better than having a satisfying and fulfilling love life.

If you knew you found a product that could drastically change your dating life for the better, wouldn't you do everything you could to get your hands on it?

I know I would...

Listen, I truly want to help you meet and date more great women. You deserve it.

That's why you **need** this book - to have the success you deserve in your love life and become the *Casanova* I know you can be.

All you have to do is click the button below to immediately download "The Perfect First Date" and your 4 free bonuses risk-free for 30 DAYS. It's that easy.

We use a secure online server that processes your order. We accept 7 types of credit card payments, including Paypal. You can rest assure that your transaction is completely safe.

So what are you waiting for?

Take the next step to change your dating life FOREVER.
